WELCOME TO THE JLC FAMILY

Thank you for your interest in John Leggott Sixth Form College. We have over 50 years of experience supporting students in achieving their aspirations. For over 30 years we have welcomed students from across the globe to join in this success. We have had over 50 students progress to either Cambridge or Oxford University. We are passionate about ensuring you achieve your potential both academically and personally.

This guide will offer you an insight into the college, highlighting the support and the opportunities available to you. You will join a college that has nationally recognised success.

Our incredible results allow our students to progress to destinations of their choice, whether on to University or employment. This success is achieved by focusing on each individual, offering tailored support, advice and guidance from the outset.

John Leggott College will be one of the most memorable experiences of your life in which you be will be challenged, enjoy a wealth of new experiences, meet new friends and grow as an individual.

Leon

Leon Riley
Principal & CEO

WE ARE
JOHN LEGGOTT COLLEGE

John Leggott is one of the longest-established Sixth Form Colleges in the UK, located in Scunthorpe, North Lincolnshire. With a proud heritage of academic excellence and over 30 years of experience welcoming international students, the college has built a strong reputation for delivering high-quality A Level & Level 3 Vocational education and outstanding student support.

Our position as a global educational institution has provided our staff with the experience and skills needed to support international students to success. As a sixth form college, our teachers are experts in their field and dedicated to their subject. They are specialists in teaching A Level qualifications and equip students with the knowledge and skills to prepare them for a successful future. Our staff are also experienced examiners, some of which are chief examiners giving them invaluable insight into the exams their students will take.

Over the years, we have used our experience to develop bespoke support programmes, such as Aspire, to help students apply or competitive courses and universities. We have successfully grown a thriving and extensive Super Curriculum programme to ensure our students learn the additional skills and knowledge needed for elite UK universities. We have dedicated and experienced International Officers, along with specialist teams available to support with university applications, health and wellbeing.

MEET THE TEAM

ELLIE PUGSLEY International Recruitment Officer

As the International Recruitment Officer, I work with schools, agencies, and partners around the world to introduce JLC to new students and build meaningful global relationships. I travel internationally to share the opportunities we offer and to support students and families as they begin their journey with us. I also work closely with our students once they arrive, helping ensure a smooth transition into college life. Welcoming young people from across the world and seeing the diverse perspectives they bring to our community is one of the most rewarding parts of my role.

BRONWYN ISHERWOOD International Officer

As the International Officer, my role is to ensure that all international students feel welcomed, supported, and confident during their time at JLC. I am here to help with general wellbeing, day-to-day challenges and any questions that arise while settling into life and study in the UK. My focus is on creating a positive and memorable experience, where every student feels at home and able to thrive academically and personally.

TUITION FEES

We are proud to offer international students competitive tuition costs which offer excellent value. Students normally opt for three to four subjects in their first year. In addition, you will also study English for academic purposes during your time at JLC culminating in the IELTS examination.

BRITISH NATIONAL OVERSEAS STATUS

John Leggott College is delighted to welcome young people from Hong Kong who hold British National Overseas status. To support families settling in the UK, we offer a 50% tuition fee reduction for all under-18 British National Overseas students studying A Levels with us.

Ready to apply?

We recommend applying as early as possible - this ensures that you secure a place at the college and have time to complete required steps for your visa. If you need help choosing an academic programme, we can help! To apply, please scan the QR code or email jlcinternational@leggott.ac.uk.

APPLY NOW

SCHOLARSHIP OPPORTUNITIES

We are delighted to announce new and expanded scholarships for international students. Our awards celebrate academic ability, artistic talent, sporting achievement and English Language proficiency.

Each year, we award three prestigious scholarships to international students. These specialist scholarships provide students with 50% tuition fees across three categories. These opportunities are highly competitive and designed to recognise exceptional students.

100% REFUND

OF YEAR TWO TUITION FEES*

WHEN STUDENTS WHO HAVE TAKEN PART IN THE JLC ASPIRE PROGRAMME ENROL AT THE UNIVERSITIES OF OXFORD OR CAMBRIDGE

ASPIRE SCHOLARSHIP

Students who receive an offer, accept it, and enrol on a degree programme at the University of Oxford or the University of Cambridge will be eligible for a refund of their Year Two tuition fees*. Progression to Oxbridge represents an outstanding accomplishment, and this refund reflects our belief that ambition, talent, and hard work deserve meaningful support.

***Students must have been enrolled on the JLC Aspire Programme to qualify. The refund is equal to Year Two tuition fees minus the non-refundable deposit. The refund will be approved and issued upon receipt of proof of enrolment at the University of Oxford or the University of Cambridge.**

Please note: Applications for all scholarships open in January and close in March each year. Applicants will need to submit all supporting materials. Senior staff will shortlist applicants. All finalists will be notified of their offer and invited to interview.

SPORT SCHOLARSHIP

Students with a strong sporting record at regional, national or equivalent level. Applicants are assessed through:

- Sporting CV highlighting achievements and competitions
- A reference from a coach or sports teacher
- An interview with our PE/Sports department about their future contribution to college sport

ENGLISH SCHOLARSHIP

Students who achieve an IELTS score of 7.0 overall (with no component below 6.5) will automatically receive a £3,000 reduction in tuition fees each year. No separate application is required - simply provide your IELTS certificate at enrolment.

ARTS SCHOLARSHIP

Students who are applying for arts-related subjects such as 3D Design, Media, Fine Art, Graphic Design, Performing Arts or Music will be assessed through the following metrics:

- A portfolio showcasing creativity & technical skill
- A short personal statement outlining their artistic journey & future aspirations
- An interview with our Arts Department

ACADEMIC EXCELLENCE SCHOLARSHIP

Students who demonstrate outstanding academic ability across any subject area. Applicants are assessed through:

- Academic records & teacher references
- An entrance exam (subject dependent)
- An interview with senior leadership to explore future ambition & motivation

- Health & Social Care
- Music
- Musical Theatre
- Photography
- Sport & Physical Activity
- Uniformed Protective services

IELTS

John Leggott College provides structured English language support to help international students meet IELTS requirements and succeed academically.

All international students receive dedicated IELTS preparation lessons, typically two classes per week totalling three hours, integrated throughout their programme to develop listening, reading, writing and speaking skills based on the official IELTS framework. These lessons are designed to build strong, confident English skills that support performance across all subjects and prepare students for the IELTS for UKVI Academic test required for visa and future university applications.

The International Team and English teachers also offer guidance on choosing the correct test, understanding the booking process and planning preparation to reach the higher IELTS scores often expected by UK universities. Students are encouraged to use official preparation resources alongside classroom learning to maximise progress and readiness for their IELTS test.

EXTENDED PROJECT QUALIFICATION

The Extended Project Qualification (EPQ) gives students the opportunity to undertake an independent research project, helping to develop the skills required for Higher Education and future careers.

Designed for motivated and self-directed learners, the EPQ encourages critical thinking, independent research, analysis, and presentation skills, while also fostering creativity, initiative, and confidence in using new technologies.

Assessment is entirely coursework-based and includes a project product, written report, presentation, and production log. Through the EPQ, students strengthen their decision-making, problem-solving, and time management skills — all of which are highly valued by universities and employers. The qualification also provides additional UCAS points, helping to enhance applications for competitive university courses.

The EPQ can be studied alongside one of our A Level or Vocational programmes during the first year of study. There is a **one-off charge of £750** for this academic enhancement package.

QUALIFICATIONS EXPLAINED

Choosing between A Levels and BTECs depends on how you learn best and the future pathway you want to follow. Both are RQF Level 3 qualifications accepted for international students in the UK, and both can lead to university, apprenticeships and successful careers.

A Levels are a more traditional academic route, focusing on theoretical knowledge, analysis and final examinations. They suit students who enjoy independent study, research and exam-based learning, and are often preferred for competitive university courses such as Medicine, Engineering, Law and the Sciences.

BTECs & CTECs offer a more practical, career-focused approach. Learning is based around coursework, projects, practical tasks and continuous assessment, making them ideal for students who prefer hands-on learning and regular feedback. These qualifications are popular pathways into subjects such as Business, Health, IT, Sport and Applied Science.

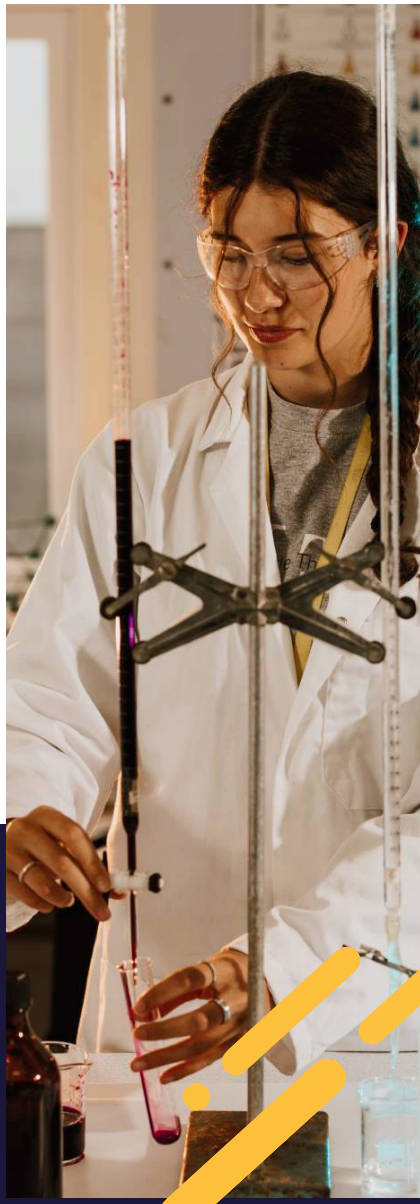
Both routes provide excellent progression opportunities, so the most important factor is choosing the qualification that matches your strengths, interests and learning style. At John Leggott College, specialist teachers and Careers Advisors help every student make a confident and informed decision about their future.

INTERNAL ASSESSMENTS

Assessment at sixth form is designed to support progress, confidence and academic success. Rather than relying only on final exams, students are assessed regularly throughout their two-year programme, giving them multiple opportunities to develop their knowledge, reflect on feedback and improve over time.

Students studying A Levels complete a series of **Common Opportunity Points (COPs)**, with five assessments in Year 1 and four in Year 2. These assessments may include written assignments, timed tasks, coursework or subject-specific activities, all carefully linked to UK exam board requirements and final qualification standards.

Every course also includes at least one full mock examination completed under real exam conditions. These mock exams help students build confidence, improve exam technique and develop effective time-management skills while becoming familiar with UK examination expectations.



For international students, regular assessment and feedback provide reassurance, structure and clear guidance while adapting to new teaching styles and academic English. Alongside strong academic and pastoral support, this approach helps students develop the independence, resilience and study habits needed for success at leading UK universities, including Russell Group institutions.

COURSE HIGHLIGHTS

For the full range of courses available, please scan the QR code

Our academically ambitious curriculum is designed to challenge, inspire and prepare students for progression to leading universities around the world.

Through expert teaching, rigorous study and a strong focus on intellectual curiosity, students develop the advanced knowledge and critical thinking skills required for success in highly competitive higher education environments. With a commitment to academic excellence at the heart of every course, we support students to achieve outstanding results and realise their full potential. Here you can find some of our most popular courses which offer a great foundation to apply for a wide variety of Higher Education pathways, both at top UK universities, and globally.

COURSE HIGHLIGHTS
ECONOMICS

Learners will study issues such as Brexit and Covid 19, and how they have had huge implications for the UK and it's relationship with other countries. This is then examined in the context of the Russia-Ukraine conflict and the impact this has had on global living costs. These economic shocks will be long-lasting and demonstrate why this course is ideal for learners who are interested in studying the fastest-growing A Level in the UK, reflecting its usefulness both in employment and higher education. Economic theory is mixed with topical information to give an understanding of how individuals and industries operate alongside the differing needs of both domestic and international markets. It is this topicality that helps provide the skills that make Economic the highest earning degree.

COURSE HIGHLIGHTS
BUSINESS

Our business course is ideal for learners who would like to gain an insight into how a successful business functions. This will include studying topics such as leadership, decision making and overall business performance in terms of marketing, operations, finance and human resources. We take an approach which draws on real business examples, allowing students to make links and identify key differences between theory and practice.

COURSE HIGHLIGHTS
MATHEMATICS

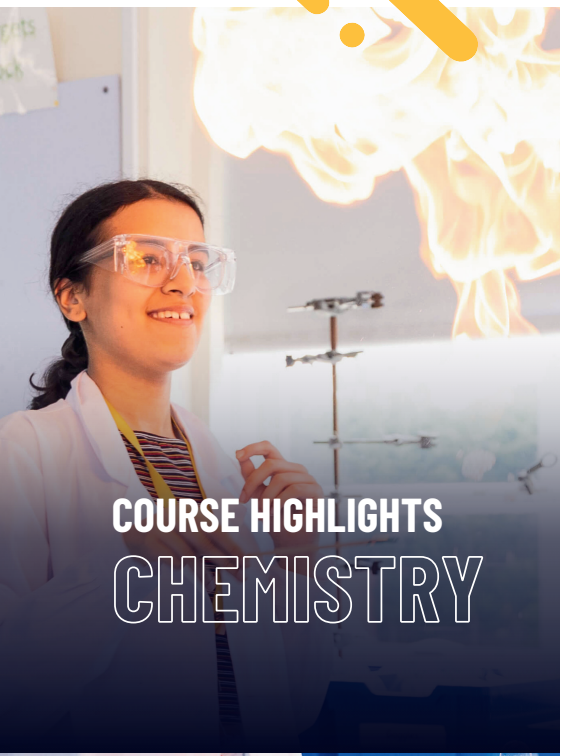
This course is ideal for learners who have a strong interest in working with numbers and problem solving. The course covers topics such as indices, surds, polynomials, coordinate geometry and graphs, differentiation and integrations, quadratic theory, trigonometry, sequences and series algebra, numerical methods, differential equations, vectors, force as a vector, equilibrium of a particle, kinematics and many more.

COURSE HIGHLIGHTS
PHYSICS

This course is ideal for learners who enjoy Science and Maths and are considering a career in a STEM field. Throughout the course, learners will look at many different areas, from Astrophysics to Particle Physics and everything in between. Physics will help you understand the world around you, develop your critical thinking skills and create a wide range of opportunities for you to progress on to.

COURSE HIGHLIGHTS
BIOLOGY

This course is ideal for learners who have a strong interest in science. Within the course, students will learn about biological molecules, how organisms exchange materials with their environment and how they respond to changes in internal and external environments. Students will also explore genetics, populations, evolution and ecosystems, as well as the control of gene expression.



COURSE HIGHLIGHTS
CHEMISTRY

This course is ideal for students who have a strong science background and would like to move into a STEM based career. Students will learn about diverse topics such as the Bohr model of the atom and evidence to support from the patterns in the Periodic Table, to the manufacture and disposal of plastics. Students will look at many of the physical chemistry tropics through a mathematical lense.

As part of the course, students can enjoy taking part in a variety of practical experiments in our labs.

PERSONAL & PROFESSIONAL DEVELOPMENT

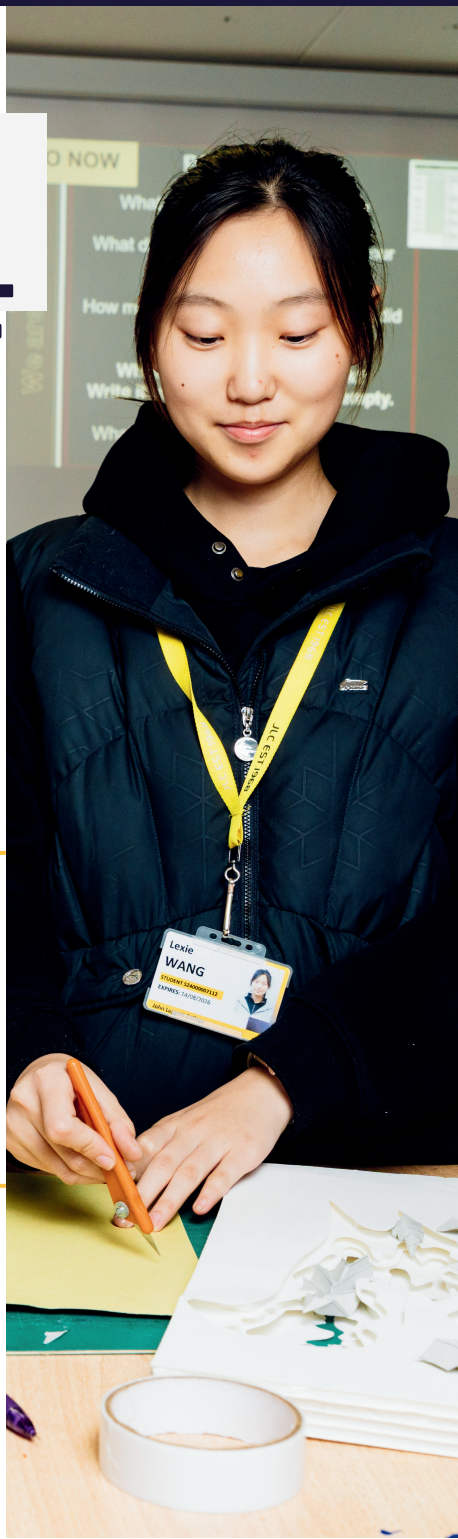
As a student at John Leggott College, the opportunities are endless! With outstanding teachers who guide our students to achieve exceptional grades, an award winning pastoral team to support your wellbeing, a wide variety of enrichments to enhance your experience and access to incredible global opportunities to broaden your horizons, JLC is more than just a classroom.

EXTRACURRICULAR ACTIVITIES

Extracurricular Activities are a fantastic way to meet new people, gain wider experience and even learn new skills! Our Extracurricular Programme focuses on activities which enhance a students overall college experienced. This programme grows each year and we are more confident than ever that we have something to interest everyone.

SUPRA CURRICULUM

The Supra Curriculum programme encourages extra academic study, in addition to a student's courses, to widen and deepen their understanding of the subjects that most interest them. It is not work set by teachers, but rather is independent research pursued by students into whatever stimulates their intellectual curiosity.



UPSKILL

To support students in taking their next steps, all learners are enrolled onto an Upskill programme as part of their weekly timetable. Upskill is a bespoke programme tailored to each curriculum area, designed to complement students' studies while helping them develop valuable transferable skills and industry knowledge.

Through Upskill sessions, students can enhance communication, teamwork, problem-solving, leadership, organisation, and independent learning skills. The programme also encourages students to build confidence, resilience, and professionalism - qualities that are highly valued by universities and employers alike.

Each curriculum area delivers activities and experiences relevant to future progression opportunities. This may include university preparation, employability workshops, guest speakers, interview practice, career exploration, practical projects, and sector-specific skills development. Students are encouraged to think about their ambitions and explore the pathways available to them after college.

ASPIRE MDV (MEDICINE, DENTISTRY AND VETERINARY)

The Aspire MDV programme is part of Upskill and provides dedicated support for students aspiring to progress onto highly competitive healthcare-related degree courses. Students from John Leggott College have successfully secured places at Medicine, Dentistry, and Veterinary schools for over fifty years.

Led by experienced Aspire MDV tutors, alongside support from subject specialists and healthcare professionals, the programme helps students strengthen their university applications and prepare for the demands of the selection process. Students receive guidance with personal statements, admissions tests, interview preparation, and developing the academic skills and professional qualities required for progression to leading universities and careers in healthcare. Students also have opportunities to visit universities offering MDV courses, helping them gain valuable insight into university life and their chosen profession.

ASPIRE OXBRIDGE

The Aspire Programme at John Leggott College is designed for ambitious students aiming for the world's most competitive universities. The programme has an outstanding track record, with offers from the Universities of University of Oxford and University of Cambridge secured at twice the national average.

Through academic enrichment, expert mentoring and personalised guidance, Aspire encourages students to think beyond the A Level syllabus, deepen their intellectual curiosity and develop the confidence to pursue exceptional academic pathways.

Students on Aspire benefit from tailored Oxbridge preparation, including one-to-one mentoring, admissions test support, interview preparation, academic seminars and visits to both universities. Beyond this, learners gain access to specialist societies in areas such as Medicine, Law, Dentistry and Mathematics, alongside wider enrichment opportunities that foster critical thinking and academic independence. Aspire reflects JLC's commitment to helping high-achieving students reach their full potential and progress to leading universities with confidence.

This package enhancement costs **£500 per academic year.**

David Cooper | Aspire Tutor

"It is a pleasure to work with such talented and inspirational young people to help them progress on to the next step in their exciting personal, academic and career pathway. Oxford and Cambridge offer a world class education and the competition for places is intense. The support programme which we offer at John Leggott is intended to ensure that our students have both the skills and the confidence to apply and compete as equals."

STUDENTS CAN EXPECT:

• Individual mentoring with one-to-one meetings at least every 6 weeks. This is to guide students through the application process, explore their wider experience and help them to reflect upon it. Crucially, it will help students to develop their discussion skills ahead of interview.

• Guidance and detailed support in writing a personal statement that fully captures each student's professional development.

• Conferences, subject seminars, visits to the Universities of Oxford & Cambridge and contact with current professionals.

• Help in choosing a course which best suits each student's professional qualities by considering the teaching style and methodology.

• Subject classes to prepare for UCAT/BMAT and interviews.

• A team of work experience specialists who will help our students to secure professional placements and direct them to online courses. These will involve individual work experience but will also provide students with the opportunity to develop their team working skills through diagnostic scenarios.

CULTURAL ENRICHMENT

Go beyond the classroom with John Leggott College. Students have the opportunity to take part in a wide range of cultural and enrichment activities across the UK and internationally, designed to broaden horizons, explore new cultures, and provide valuable experiences beyond academic study.

Through trips organised by the International Team throughout the year, students can develop independence, build confidence, make new friendships, and create lasting memories. These experiences also encourage greater cultural awareness and help students adapt to new environments and perspectives.

We are proud to include a programme of cultural and enrichment trips within the overall tuition fees. Recent UK visits have included York, Lincoln Cathedral, The Deep, Alton Towers, Meadowhall, Donna Nook, football matches, and organised social events and meals.

In addition, students may choose to take part in curriculum-based and international trips at an additional cost (prices vary). Previous overseas destinations have included Portugal, Italy, Malta, Dubai, the Philippines, and the USA.

At John Leggott College, learning extends far beyond the classroom, helping students grow academically, socially, and personally.

INDUSTRY PLACEMENTS

At John Leggott College we have fantastic relationships with employers. These employers support our students in many ways, including by offering insights into possible career routes and providing our students with the inspiration to succeed. Our work with these employers allows us to provide students with industry placements that will help develop their knowledge and skills.

CAREERS ADVICE & GUIDANCE

Our experienced Careers Advisors are here to support international students in planning their future pathways and achieving their ambitions.

They offer personalised advice and guidance on university progression, including support with UCAS applications, personal statements, choosing the right course, and exploring higher education opportunities in the UK and beyond.

Careers Advisors also help students explore a wide range of career opportunities and develop the skills needed for future success.

Support is available with CV writing, interview preparation, employability skills, and career planning, helping you make informed decisions about your future. Whether you are planning to progress to university or move into employment, our Careers Advisors are dedicated to helping you feel confident and prepared for your next steps.

A BRIGHT FUTURE

BENEFITS OF A UK SIXTH FORM

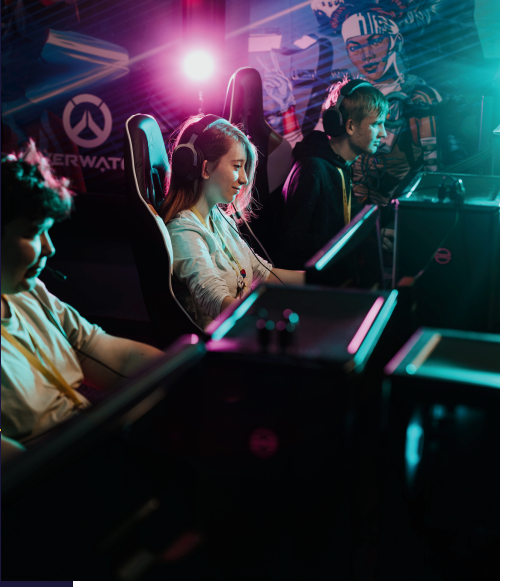
OUR FACILITIES



COMPUTING SUITES & DIGITAL EQUIPMENT

Over the past five years, we have made a significant investment in digital equipment, including a virtual reality learning and skills space, computer & esports suites and smaller digital devices such as VR headsets and drones.

In our central hall, The Core, we have an innovative 180 degree technological immersive space which allows students in the college to take part in unique experiences such as video conferences with elite universities, masterclasses and scenario based learning.

John Leggott College boasts three state-of-the-art IT suites and two esports suites. This new equipment provides students with high end, industry standard machines they would not ordinarily have access to. The equipment is a significant investment and represents our commitment to being a Centre of Excellence for Digital Technology and IT experiences within our region.

This hi-tech learning environment allows students to consider a full range of potential careers as they learn skills which prepare them for the workforce.

DANCE STUDIO

Our large dance studio has mirrored walls and an actively sprung floor.

FASHION STUDIO

Our fashion studios are home to industry standard sewing machines which can be used alongside textiles equipment by those looking for a future career in fashion.

ART STUDIO

Our creative arts department houses two large and fully equipped art studios, a photography studio and two dark rooms.

SCIENCE, TECHNOLOGY & ENGINEERING

We have specialist STEM laboratories for subjects including Chemistry, Biology, Physics, Engineering, Electronics and Mathematics. Students are able to take part in regular practical experiments and research.

THEATRE

The theatre has 120 fully retractable seats with two adjacent rehersal rooms.

MUSIC & RECORDING

Musical students can make use of our recording booths & multi-track recording rooms. There are additional private rooms for individual music lessons and personal practice.

DESIGN TECHNOLOGY LAB

Our design technology lab is fully equipped for students to complete metalwork & woodwork. We also have an industry standard laser cutter

SPORTS FACILITIES

We provide excellent sports facilities to be used by all students who would like to participate in a sporting activity. Our facilities include:

- Large sports hall to be used for Basketball, Netball, Volleyball and Badminton.
- Fully equipped fitness suite
- Outdoor all-weather Multi Use Games Area (MUGA)
- 3G Football Pitch
- Rugby Pitch

WELLBEING SUPPORT

PASTORAL CARE AT JLC

At John Leggott College, student wellbeing is just as important as academic success. Our dedicated Wellbeing Team provides support for students' mental, emotional and physical health, helping every student feel safe, supported and able to thrive during their time in the UK.

International students can access support throughout the week, whether they need advice, reassurance or simply someone to talk to.

The Wellbeing Team works closely with teachers, Progress Tutors and pastoral staff to ensure students receive personalised support whenever they need it. Students can visit the Wellbeing Office in the ARC, book one-to-one appointments or access guidance on topics such as mental health, mindfulness, self-care, stress management and adjusting to life in a new country.

For international students, moving abroad can feel exciting but also challenging at times. JLC offers a welcoming and inclusive environment with experienced staff who understand the pressures of adapting to a new culture and education system.

Alongside wellbeing support, students benefit from strong pastoral care, weekly tutorials and peer support schemes designed to help them settle quickly, build confidence and feel part of the college community from day one.

24 HOUR SUPPORT

You will never be alone at John Leggott College.

Whatever concerns students may have, there will be someone to listen and someone to help. If a student needs to chat with a staff member, they are able to come and talk to us at any time.

During college hours, students are able to speak with the International Team in person. You will find the team in the International Office.

Students will be given an emergency contact number for use at any time, day or night. The emergency phone is staffed by a member of the international team and is there to ensure our students are fully supported during their time at JLC.

PROGRESS TUTORS

At John Leggott College, every international student is supported by a dedicated Progress Tutor who provides personalised academic, pastoral, and wellbeing support throughout your time at college.

Your Progress Tutor will help you settle into college life, monitor your progress, and support you in achieving your goals. Through weekly tutorials and one-to-one meetings, you will receive guidance on study skills, exam preparation, goal setting, and future progression, including university applications and career planning.

Progress Tutors work closely with teaching staff to ensure you stay on track academically while also providing a safe and supportive space to discuss any concerns. Their role is to help you develop confidence, independence, and the skills needed for success both at college and beyond.

SUPPORT TEAMS

We have a range of support teams in college who can help students navigate everyday college life. These teams are easily accessible within the college campus.

STUDENT SERVICES

Student services are located in the college reception. Students can access student services during the college day for help with general enquiries.

IT SUPPORT

Students who require support with IT, printing or digital devices can visit our IT team for technical support during the college day.

EXAMS

Our exams team will provide students with timetables for their examinations, advice on what to take to exams and certificates when they achieve their qualifications.

WELCOME TO SCUNTHORPE

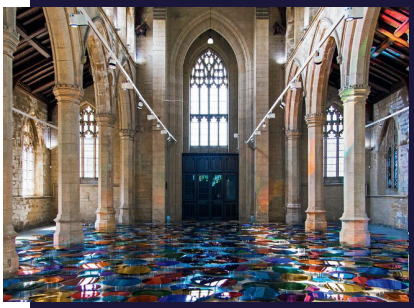
John Leggott College is located centrally within the UK in a town called Scunthorpe.

Scunthorpe offers international students a safe, friendly and welcoming place to live and study. The area combines modern town life with beautiful countryside, green spaces and a strong sense of community, creating a relaxed environment where students can feel comfortable and supported while studying in the UK.

Students enjoy exploring local attractions such as parks, cafés, shopping centres, theatres and art galleries, all located close to the college. Popular destinations including Central Park, Normanby Hall Country Park and Waters' Edge Country Park provide peaceful spaces to relax, study or spend time with friends outside of lessons.

The region also has a growing cultural scene, with live music, theatre performances, exhibitions and community events taking place throughout the year. Venues such as the 20-21 Visual Arts Centre and Scunthorpe Theatres offer opportunities to experience both modern and traditional British culture.

Scunthorpe is easy to navigate and well connected to major UK cities including York, Leeds, Sheffield, Manchester and London by rail and road. This makes travelling across the UK simple for day trips, university visits or weekends away, while nearby international airports provide convenient access for overseas travel.



EXPLORE THE UK

Our location makes it incredibly easy to travel across the UK!

London
155 miles (249km)

Manchester
105 miles (169km)

Edinburgh
210 miles (338km)

Cardiff
205 miles (330km)

York
80 miles (129km)

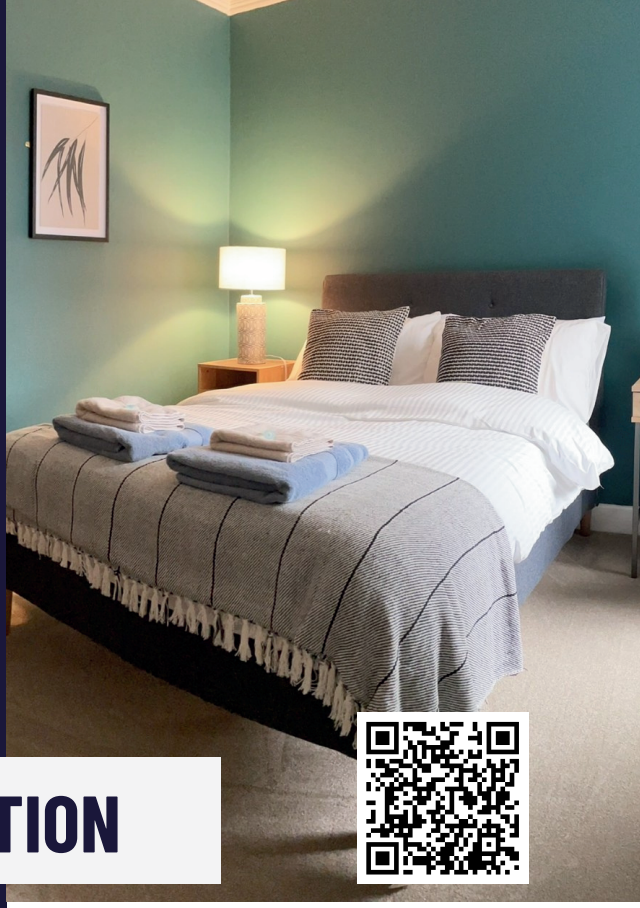
Bristol
175 miles (282km)

Lincoln
40 miles (64km)

Brighton
185 miles (298km)

All international students at John Leggott College have access to high-quality, safe, and supportive accommodation.

We are proud to offer three excellent living options designed to suit different levels of independence and student preference: Homestay accommodation, our brand-new 18+ Student Accommodation, and our new partnership with St James' Boarding School in Grimsby.



ACCOMMODATION

CHOOSING YOUR ACCOMMODATION

At John Leggott College, every international student can choose the accommodation that best suits their needs and level of independence.

Students may:

- Spend both years living with a host family, enjoying a supportive home environment throughout their studies.
- Begin their studies in Homestay accommodation during their first year, then move into the 18+ Student Accommodation in their second year to prepare for university life.
- Choose the traditional boarding experience at St James' School for a structured, community-based lifestyle.

Whatever the choice, all accommodation options are safe, welcoming, and designed to help students thrive both academically and personally during their time at John Leggott College.

HOME STAY

Many of our international students live in Homestay accommodation, staying with one of our carefully selected host families.

Our host families make students part of their household during their time at John Leggott College. Many students form lifelong friendships and stay in touch with their hosts after leaving. Once a student is matched with a family, we share their details so that students can get to know them before arrival.

Staying with a host family helps students immerse themselves in British culture, gain confidence, and practice their English daily. Families often take students to local places of interest and support them as they settle into life in the UK.

All host families are fully DBS checked, trained, and visited by the college before students move in. Homes are within an hour of the college by bus, with most within walking or cycling distance. Each student has their own room, and individualised care is provided to ensure a safe and comfortable experience.

FEES

Homestay can be catered or self-catered.

Catered accommodation is £175 per week - this includes breakfast and evening meal on weekdays, all meals at weekends.

Self-catered accommodation is £145 per week - students are responsible for all meals.

Guardianship & deposit fees also apply.

LARCHWOOD HOUSE

INDEPENDENT LIVING FOR 18+

John Leggott College will offer a brand-new Student Accommodation option for learners aged 18 and above. This modern 10-room residence provides a safe, comfortable, and supportive environment for students ready for a more independent living experience.

Each student will have a private bedroom and access to shared communal spaces that encourage social interaction and the development of key life skills such as cooking, cleaning, and time management.

Students will receive breakfast at the College each day, included in the **weekly cost of £175**, and prepare their own lunches and dinners during the week, as well as all meals at weekends. This balance allows students to gain independence while still having structure and support.

This option is ideal for students who wish to transition from Homestay in Year 1 to a more independent environment in Year 2, preparing them for university life.

Please note: admin & deposit fees also apply

NEW FOR 2026/2027

We are delighted to announce our new accommodation partnership with St James' in Grimsby, a traditional private boarding school located around 35 minutes from John Leggott College.

St James' has a long and proud tradition of boarding, offering a warm and family-like community with students from around the world. The school provides a structured, supportive environment with proactive houseparents and a strong emphasis on both academic success and personal growth.

The boarding house is close to public transport and within walking distance of the beach, offering a unique and enjoyable living experience.

This traditional boarding option provides students with the opportunity to live in a close-knit community while attending John Leggott College.

The weekly fee of £175 includes a daily bus to and from college, along with breakfast, lunch at John Leggott College and an evening meal to be cooked by the student.

ST JAMES' BOARDING SCHOOL PARTNERSHIP

MEET OUR STUDENTS

Khanh Dung Mac
Vietnam

"The benefit of coming to the UK is that you get to experience the culture and the quality of teaching here. My host family is very helpful, I feel like I belong in their family. There is help and support all around the college. I'm intending to go to University in September to study Economics at either LSE or UCL."

Gaye Akdere
Turkey

"John Leggott College has many opportunities. When you're not in lessons, you get a lot of chances to socialise, they have a buddy scheme where they match you up with an UK student who you have a similar personality to, they can help you with anything. Around college there is a lot of really great support on offer to help you succeed in every aspect of life here."

Sing Ho
Hong Kong

"I chose JLC to be independent and to get into a good UK University. With my host family we do outdoor activities including walks and boating. My English wasn't this fluent when I first came here, I learnt a lot through interacting with staff and friends . I would highly recommend anyone from all around the world to come to John Leggott College."

Zhimeng Zeng
China

"My host family are great! I enjoy cooking and they give me lots of freedom to do this in their home. With the friends I've made here through the International Buddy Scheme we have been on lots of trips together including Edinburgh, London and York."

Sze Long Wan
Hong Kong

"I choose to come to John Leggott College after my agent recommended it, I like it because I can study A Levels and go to a good university. Being a part of the basketball team it has been easy to make friends here, we have training and matches every week in college and outside of college we meet up and go to the gym and sports centre together."

Khoa Nguyen
Vietnam

"I study Maths, Further Maths and Physics here, I was recommended John Leggott College as the best place to study abroad. Teachers give us feedback of what we need to do to improve. Every Saturday we book a basketball or badminton court at the The Pods, Sports Centre to spend time together with friends."

UK Visas and Immigration

Licensed Sponsor

John Leggott College is a UK Visas & Immigration (UKVI) licensed Student Visa sponsor. We can enrol international students aged 16+ on full-time Level 3 courses (A Levels, BTEC) and issue a Confirmation of Acceptance for Studies (CAS). Courses are typically up to 2 years. Visa length is set by UKVI based on your CAS.

INTERNATIONAL VISA

Who We Can Sponsor
Students must:

- Be 16 or over
- Hold an offer for a full-time Level 3 course
- Meet academic and English requirements
- Meet UKVI financial and documentation rules

What Sponsorship Means
We assess all applicants as a genuine student, issue a CAS, and support the visa application. We also monitor attendance and engagement. Sponsorship does not guarantee a visa - decisions are made by UKVI.

Students at this level cannot work or bring dependents.

Visa Requirements
Students will need:

- Passport and CAS
- Proof of funds (fees + living costs)
- Supporting documents (e.g. bank statements, parental consent if under 18)

Students will apply online after receiving their CAS. Students will be required to submit documents, pay fees (including IHS), and provide biometrics. Decisions usually take around 3 weeks.

After Visa Application
Check visa details and travel with all key documents. Students will complete enrolment and induction on arrival in the UK.
